Professional Summary

Backend Web Developer with 2+ years of experience building scalable APIs and solving real-world problems through clean, efficient code. Strong focus on performance, security, and maintainable architecture.

Experience

Backend Developer

April 2024 – Present

M360ICT

- Worked on diversified software products including **SaaS platforms**, **online travel agencies (OTA)**, and **ERP SaaS systems** with double-entry accounting.
- Designed, developed, and maintained backend services and **RESTful APIs** using **Node.js**, **Express.js**, and **TypeScript** to support scalable business applications.
- Integrated **Global Distribution System (GDS) APIs** such as **Sabre** and **Travelport** for flight search, booking, and travel management workflows.
- Implemented database operations using **MySQL** and **PostgreSQL**, ensuring data integrity and efficient query performance.
- Collaborated with frontend and product teams to implement business logic, API integrations, and ensure seamless system communication.
- Optimized backend performance, improved system reliability, and supported deployment using tools such as **Docker** and **AWS**.

Projects

Lantabur Tours & Travels – Online Travel Agency (OTA)

Live

- Developed and maintained a full-scale **online travel agency (OTA)** platform supporting flight, hotel, tour package, and visa booking services.
- Integrated **Sabre GDS APIs** for real-time flight search using **Server-Sent Events (SSE)** and implemented booking workflows including **Special Service Requests (SSR)**.
- Built backend logic for hotel reservations, tour package management, and visa application processing.
- Designed RESTful APIs and ensured system reliability for production usage.

Dokani – Inventory Management / POS SaaS Platform

Live

- Built and supported a **SaaS-based inventory management and POS system** to track sales, stock, and daily operations.
- Implemented sales recording and daily reporting features with accurate transaction history and analytics.
- Developed backend services focusing on data consistency, reporting accuracy, and scalability for multiple users.
- Improved performance and maintainability through clean backend architecture and optimization.

Technical Skills

Languages: JavaScript, TypeScript, SQL

Frameworks: Next.js, React.js, Node.js, Express.js, FastAPI

Databases: MySQL, PostgreSQL

Tools: Knex.js, Docker, AWS, Git

Other: REST APIs, Generative AI, LangChain, RAG, Tailwind CSS

Education

World University of Bangladesh	Bachelor's Degree (MIS)	2025 – Present
Rajnagar Technical School & College	Higher Secondary Certificate (HSC)	2024
Zillur Rahman School and College	Secondary School Certificate (SSC)	2022
